

## Release Notes for INSPECTIS© ProX, V7.2.6 through V7.2.8

### New:

1. Barcode Reader feature is added to ProX.
2. 1600x1200 format is added to "Device Resolution" of the USB cameras.
3. Device drivers for USB Camera, Communication cable and PCIe capture card can be installed automatically during the installation wizard.
4. Communication cable device driver is updated for better compatibility with Win11.
5. A measurement file in CSV format is created automatically and saved in real time. The location of the measurement file is defined by the user under Settings. The measurement file can be accessed from other Apps in real time.
6. Circle Area measurement result is displayed next to the Diameter in "Measure a Circle" tool.
7. Image properties are printed on report under pictures.
8. A new checkbox for enabling the print image properties on report has been added to the program Preferences.

### Improvements:

9. Destination of the Log file is changed to AppData\Roaming.
10. "Measure an Angle by 3 Points" procedure is adjusted. The second point defines the vertex of the angle.
11. Mouse click on Zoom Editor, highlights the current numbers for easier editing.
12. Focus stacking of low height objects is improved.
13. Barcode reader engine is improved.

### Bugfixes:

14. Software crashed if camera control was not established in Win11.
15. Measurement icons were blocked upon calibrating external uncalibrated images.
16. "Annotation with Line" Icon did not stay on top of the icon group when selected.
17. Sporadic software crashes due to double click on image thumbnail resolved.
18. Measurement icons were blocked when calibrating an external uncalibrated image.
